FACE prods fintechs to sign up for cyber fraud tracking portal

RAGHU MOHAN
New Delhi, 16 August

The Fintech Association of India (FACE) has asked its members to explore joining the Citizen Financial Cyber Fraud Reporting and Management System (CFCFRMS) – part of the National Cybercrime Reporting Portal. Besides, FACE members are also to appoint a nodal officer to attend to customer grievances and engage with law-enforcement agencies to prevent fraud.

The move is significant on the part of FACE and should be seen in the context of it being an applicant to become a self-regulatory organisation (SRO) among fintech lenders. The Reserve Bank of India (RBI) is expected to make an announcement on the first SRO in this space shortly; the other applicant in this area is the Digital Lenders' Association of India.

CFCFRMS provides an integrated platform where all stakeholders, including states and union territories, major banks and financial intermediaries, payment wallets, crypto exchanges and e-commerce companies work in tandem for quick, decisive, and system-based effective action to prevent the flow of money from victims' account to cyber fraudsters' account.

The increased use of digital modes of transactions and the convergence among regulated entities (REs) – banks, legacy non-banking financial companies, new-age fintechs, insurance players and payment firms – in servicing customers have upped the touch-

ILLUSTRATION: BINAY SINHA

COUNTERING FRAUDS

■ CFCFRMS is an integrated platform where all stakeholders including states and UTs, major banks, and financial intermediaries work to tackle cyber fraud

■ The report on Currency and Finance FY24 says 94.5% users held that they had not experienced any fraud

■ The incidence of an encounter with fraud or attempted fraud was lower in metros compared to semi-urban areas

■ Wishing is the most prevalent method in frauds or attempted frauds followed by phishing, misuse of 'collect request' and remote access

points for cyber frauds.

It may be recalled that the RBI is also to set up a Digital Payments Intelligence Platform (DPIP) to harness advanced technologies to mitigate payment-fraud risks. A committee has been set up under the chairmanship of A. P. Hota, former managing director and chief executive officer of the National Payments Corporation of India (NPCI), which is expected to give its recommendations within two months. Putting forward the reasons for DPIP, the central bank said that many frauds occurred by influencing unsuspecting victims to make the payment or share credentials.

While the payment ecosys-

tem (banks, NPCI, card networks, payment aggregators, and payment apps) take various measures on an ongoing basis to protect customers from such frauds, there is a need for network-level intelligence and real-time data sharing across payment systems.

Last week, the minister of state for finance, Pankaj Chaudhary, told the Lok Sabha that the sum lost on account of cyber fraud had more than doubled to ₹177.05 crore in FY24 from ₹69.68 crore in FY23 on account of credit, debit card and internet banking frauds. The quantum of loss was ₹80.33 crore in FY22, ₹50.10 crore in FY21, and ₹44.22 crore in FY20.

FMCG majors eye big bite in pet-care mkt

AKSHARA SRIVASTAVA
New Delhi, 16 August

The Indian pet-care market is hotting up with a new player set to enter the arena soon.

Earlier this month, Godrej Consumer Products (GCP) said it will foray into the sector in FY26 with an investment of ₹500 crore over five years.

Currently valued at ₹5,000 crore, the market has the potential of a strong double-digit growth for the next few decades, the company said in an exchange filing, while announcing its move.

"To give a perspective, only 10 per cent of Indians own a pet, of which only 10 per cent feed packaged food and that too only 40 per cent of the time. Calorie conversion in India is only 4 per cent. China, which was remarkably similar to India 15 years ago, has 20 per cent pet ownership with a calorie conversion of 25 per cent. While the opportunity is clear, we believe that our right to win as a group is high," the filing stated.

According to Euromonitor International, in 2024, pet care in India is expected to maintain dynamic retail volume and current value growth. This is fuelled by the rising pet population,

increasing pet humanisation, and easier access to pet food and products.

The pet population in India was estimated to be around 19 million in 2023, and is expected to have a compound annual growth rate (CAGR) of 9 per cent over the next five years.

The survey also revealed that around 65 per cent of pet owners in India are between the ages 20 and 40 years.

"Growing awareness of pet nutrition is also set to boost sales of prepared dog and cat food," the market research company stated.

GCP is not the first big player in the

- Pet-care market currently valued at ₹5,000 cr
- Pet-care space to be a key growth driver for Nestle India
- Godrej Consumer Products to invest ₹500 cr
- Heads Up For Tails aims to become ₹500 cr brand in 3 years

burgeoning sector.

Fast-moving consumer goods (FMCG) major Nestle India, too, has identified pet care as one of its key areas of growth. The company had acquired Purina pet care in India, a brand it owns globally, in 2022.

"We have just started the journey and there's huge ground to be covered there. With as many as 25-30 million pets, people are looking at good quality, safe, sustainable pet food. The nutrition coverage is very little, as a lot of people are still giving homemade food to pets," Suresh Narayanan, chairman and managing director, Nestle

India had said earlier. Chocolate maker Mars Wrigley also has a significant play in the pet food market, with its brands Pedigree and Whiskas.

The pet care market has seen increased activity post the pandemic as more people started owning pets.

"It was also a way of having some companionship and warding off loneliness as people were locked inside their homes for a prolonged period of time," said a Delhi-based psychologist.

Pet care startup Heads Up for Tails, which started as a pet lifestyle brand, also launched a new pet food brand Hearty last week.

"We wanted to do food for pets differently. Generally, it is extruded at very high heat and lacks nutrition. We want to change that," said Rashi Narang, founder and chief executive officer (CEO), Heads Up for Tails.

Currently, pet food contributes about 43 per cent of the company's overall business.

With a current market share of 3-5 per cent in pet food and nutrition, it aims to grow in a calibrated way and clock revenues of ₹350 crore during the current financial year. It is eyeing to become a ₹500-crore brand in FY26 and achieve a total market share of 10 per cent.

Telecom firms seek to bring call, messaging apps under licence

Telecom operators, in their latest submission to sector regulator Telecom Regulatory Authority of India (Trai), have unanimously demanded to bring over-the-top apps like WhatsApp, Signal and Telegram within the ambit of the licensing regime under the new Telecommunication Act.

Reliance Jio, Bharti Airtel, Vodafone Idea and industry body COAI — in their comments on the consultation paper issued by Trai, seeking views on the framework for service authorisations to be granted under the Telecommunications Act, 2023 — have said that the calling and messaging apps should be brought under services to be provided through authorisation.

"As per our understanding, OTT Communication services are covered under the new Telecom Act as an access service," COAI said in its submission to the Trai.

Ipsa targets ₹100 cr mkt with diabetic foot ulcer drug

Ipsa Laboratories has launched Diulcur, a topical treatment specifically designed to address diabetic foot ulcers (DFU).

With this new drug, the company is targeting a ₹100 crore market within the next three years. This drug has shown a 77.20 per cent ulcer closure rate in clinical trials, offering hope for a condition that often leads to severe outcomes like lower limb amputations. Developed by NovaLead Pharma, the gel ointment, priced at ₹1,365 for a 15-gram tube, is expected to require 6-7 tubes for a complete treatment course, which can last anywhere between 12 and 24 weeks. Notably, 20 per cent of the cost is subsidised by the government, making it more accessible to patients in need.

Warburg Pincus buys majority stake in Ebco

Warburg Pincus, a global growth investor, has acquired a majority equity stake in the Ebco Private — largest Indian player in the furniture fittings and architectural hardware segment. The valuation of the company was not disclosed. The promoters will retain a significant minority stake in Ebco and will be actively involved in the future growth of the business. "We believe that the Indian furniture fittings and architectural hardware industry is poised for significant growth over the next several years," Anish Saraf, managing director, Warburg Pincus India said.

Delhi-NCR gets highest realty investment of \$633 mn in Jan-Jun

Delhi-NCR's real estate market has attracted highest private equity investment of \$633.3 million during January-June period of this year as investors look to cash high demand for prime office space and luxury housing, according to Cushman & Wakefield. Out of the total investment in Delhi-NCR, office assets received \$483.6 million, while residential received \$49.6 million.
